Forecast for Saturday 28 May 2022

Weather: A slightly chilly start to the day with a mixture of clear periods and scattered low cloud temporarily covering the highest summits. A dry and fine day follows with plenty of warm sunshine. Skies staying largely clear into the evening and night.

Chance of cloud-free hill tops above 600m: 70% at first, becoming greater than 90% by mid-morning.

Low cloud and visibility: Visibility is expected to be mostly good or excellent with distant hills clearly visible. Poor visibility is possible at first in any patchy low cloud obscuring a few routes above 400m.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

An excellent day to be out on the hills. Make sure to protect your skin in the lengthy sunshine as UV levels are expected to be high.

Forecast for Sunday 29 May 2022

Weather: Largely clear skies through the early hours of Sunday but with the risk of some shallow mist and fog patches forming in valleys, although quick to clear as the Sun rises. Cloud building through the morning, leading to some hazy sunshine but also the risk of occasional showers, perhaps heavy at times. The showers easing off into the evening with some clear periods developing.

Maximum wind: Northeasterly 10mph.

Chance of cloud-free hill tops 600m: 90% in the early hours and into the evening, falling to 70% during the day.

Low cloud and visibility: Cloud building during the morning, with areas obscuring routes above 400m at times, most likely in association with showers. Any showers also reducing visibility for a time. Otherwise very good visibility expected.

Temperature: **Valleys:** Plus 6 Celsius, rising to Plus 16 Celsius.
At 600m: Plus 3 Celsius, rising to Plus 7 Celsius.
Freezing level: Above the summits.
